or scan and  
register using  
this QR code:

Are you a Langley resident between the ages of 10 to 100?  
Join us to tell your story, explore differences and similarities  
and create art!

This storytelling project will bring together 60+ seniors and  
youth to share their perspectives and experiences and create  
art that depicts the changing faces in the Langleys. The art  
projects will be displayed in the Langleys in July.

Through the creation of these joint art projects, participants will:

- challenge ingrained racial stereotypes
- celebrate difference and diversity
- explore the use of art to story tell and depict  
changing communities
- use the opportunity to build a positive image for the area
- learn from each other
- develop new skills and new ways of learning and sharing!
